

Myself, along with my large family and friends, listen to K-Love many hours of everyday. God has used K-Love to bless so many people and change so many lives by teaching truth. God uses the station to get the message into the world that His love is firm and heals. K-Love has bettered many communities by changing hearts and making the world a safer place. K-Love is a light in the darkness. The world is a scary place, and we need to open doors that will change our society into a friendly place. Taking away K-Love would close one of the few doors we have open. Please! Please keep K-Love reaching as many people as possible.
